The set of instructions is given in the style and format to be used by the authors. Papers to be presented at the Workshop will be mainly selected by Program Committee on the basis of submitted papers.

1. Introduction

2. General Instructions

Page Format

Submitted Late News must be converted to PDF file and in 2 pages. The file must be smaller than 1 MByte. Please do not encode or compress the file. To avoid unexpected troubles in reviewing process, two-byte characters such as Japanese, Chinese, Korean, etc. fonts cannot be used for both figures and texts. The abstracts and the main text should be typed single-spaced. The abstracts span the both columns, however, the main text should be written in the two columns. The sections should be numbered beginning with "1.Introduction". Acknowledgments and References should not be numbered. Place a blank line between the

sections. Subsection headings, if any, should not be numbered. Justify the column both at the right and the left. Don't forget to check spellings.
